SECRETARY'S OFFICE
REVENUE BRANCH

OFFICE NOTE.

SUBJECT.

Dr. K. Shanmugam
applies a lion for
Takkavi advance
to certain Raising of
the Madras Presidency
intending to settle at
Sulekere.

LAST REFERENCE

Letter No. 301 dated 24th Sept,
1905
from the Dy. Commr. Shani,

Int. Ref. April 95-906.

Dr. K. Shanmugam
applies for a Takkavi
loan of Rs 3750/- for
advancing Rs 25/-
at the rate of Rs 150/-
family (Rs 100 for per
2 pairs of bullocks &
for their Railways fare
for 5 months. He
has promised to co-
operate at

from the Madras Presidency & settle at Sulekere for cult
of land where there
is no any
extensive land of
cultivation on the pre

the house would be
free gravel to these
kinds of ordinary
building materials.
He also explains
that ^{partly} for want of
population, ^{partly} on account
of obstruction to the free
marketing of goods on the
road ^{that} they contain
late trees & ^{partly on account} of a very
large area being allotted
to unutilized Kasals,
cultivation is in a
backward state ^{in the neighbourhood} that
has been trying to
assist cultivators
on the headlands
by making Presidencies
to have 25 families
and ~~one family~~ ^{offered}
one & a half ^{temples} as cultivators
~~take up land to~~
lay hold owing to
severe failure

Specifying Very large
sums ~~amounts~~ of money
in the Sukkare works
& the Borankuade
& Kauri Kanare projects,
it is necessary to make
arrangements ~~to~~ for
making ~~these~~ ^{these} works
a permanent fixture
& it is idle to expect
that ^{the} local population
will take up all
waste lands within
a reasonable period
& whenever people
come forward & make offers to
in the vicinity of
Sukkare works every
encouragement
should be given to them.

2) A copy of this petition
was sent to the Dy. Commr.
Shimoga to with a
request to investigate
the matter fully &
submit a report to
the Dy. Commr. In his report the
Dy. Commr. states that
the general health
of these parts is considerably
improving except
in

207024
@ 2435 5/8/31

in A or a helli Village
which has to be shifted
to a better locality,
that ^{the} trees has decided
for throwing of a
more land for
cultivation. Indeed
these channels, that
being based on which
there are date trees
~~has~~ ^{has} been reserved
for rice purposes
with the ~~result~~ ^{result}
result that the date
growth has enormously
increased, ~~in the~~

Says the Dr. Comr.

~~of the~~ It is a question
whether the advantage
to the rice department
from such a reservation
is at all commensurate
with the loss
of the land revenue
caused by the withholding
of the plots from actual
cultivation. ~~that~~ at
all events it has afforded
no scope to the free
expansion of cultivation
or the full utilization
of the costly & expensive
works executed to the channels.

that the proposal of The Dy Commissioner further states
that the proposal is quite
agreeable, that he does
not object to the
grant of the lands
applied for by him.

Shamdasani ~~is the owner~~
~~of the foreign property~~
with no prejudice
to the Excise Revenue,
reserving land of
the date trees and
grow on the margin
of the land & form
a fringe or belt which does not
~~interfere~~ interfere
with the cultivation,
& ~~reserving~~ ^{also} the entire
Survey No. 120 as it
contains a parkka
date grove.

3) The Dy Commissioner further
suggests that the
principles enunciated
in Govt. Pro No. ^{Pat. 4}
458-63 of
31st August 1901. should
be applied in deciding
the question regarding
the grant of these lands.

The.

copy put up
where
all

4) The By Secret Means
Do Vicecomb & Co. say
who imported from
other lands in the
same locality have
~~expressed~~ brewed them

"None of these are
"cultivated plants
"can be said to be
"in the midst of groves,
"because there are
"practically no groves
"in those localities
"except in one or two
"places & both from
"an economical point
"of view (as much grain can
"be grown there) &
"from a perspective point
"seeing they will pay
"well - Can day for
"cultivation. Should
"I think be permitted
"but from an economic
"point I have no
"hesitation in advising
"that the right to grow
"date trees with right
"of access should be
"granted to fruit & if the
"applicants choose to
"take the lands on these
"terms, by all means
"let them do so."

14/9 Mr. Thanna Zengar

has since seen me

& explained to me ^{that}
his subject cannot be
treated as one coming
under the Land Improvement
loans Rules or the Takari
Rules. It is claimed
by the Government
he asks for a loan on the
security of his
property & he repays
in four annual
instalments. I
could charge an
interest of 4%.
The object is one
of giving encouragement
Please place before
the Dewan & obtain
his orders.

19/12/1921
I reserve the question

is branches the loan
 applied for - the loan
 will be paid in instal-
 -ments of 1000 ~~Rs~~ each
 The importations may
 take place by batches
 or if they come all at
 once the payments will
 be made by instalments.
 When the 1st ^{thousand} ~~thousand~~
~~Rs~~ is spent the ^{imported Rs 5} ~~Rs~~ ^{doctors}
 who by that time will have met their
~~expenses for the loan and the salaries~~
~~and become Khakhs~~
~~who by that time will~~
~~obtain Khakhs will become~~
 entitled to receive the
 loan within ^{names} ~~one~~ ^{year}
 - in Shanghai this land
 will then be collateral
 security. By such
 management the
 whole enterprise can
 be managed under
 the rules - I shall be
 glad if the ^{1st} ~~1st~~ ^{Committee}
 will consider them
 now and dispose
 of the matter accordingly

F. No.	13701
Serial.	1

P. N. Krishna Moorthy Esq.
C.D.E.
First Councillor
Mysore Government

Sir,

I beg to submit the following proposition, for your early consideration and orders, before the next cultivation season commences.

Government is well aware that the Sukkera Lake, in the Chennarayana Taluk, has got a perennial supply of water containing an Achant of 6000 acres of land; out of which nearly 2000 acres under cultivation, myself holding for more than 900 acres.

Recently about one lakh of rupees have been spent on the improvement of channels etc.; but the same has not yet proved to be sufficiently remunerative. For want of proper management and on account of obstruction to the

free grant of lands on the ground they contain date trees, and of a very large area being allotted to Amartamahabharata's cultivation is in a backward state; and Govt. is also aware that previous to my setting an example by taking up lands and carrying on extensive and very costly improvements, the revenue realised under this tank was a nominal one. It is now getting nearly twenty thousand rupees.

From the accounts I have gathered, it seems, that the revenue realised under this tank in ancient times amounted to nearly 49000 Rs. Although there is wide scope to increase the revenue very near to that amount, yet above obstacles have retarded the improvements. For some time I have been trying to import cultivators from the Madras and Bombay presidencies. once about fifty families

44
from Dhalinty six years ago there
come and settle in this locality
up lands. They also stated that extensive
large number of families were likely to
follow their example. These people wanted
Thakari advances and free grant of wood
for building purposes; former payable
back within three years. I verbally
submitted this proposition to the Dewan
and he approved of my idea, but
immediately after this, I had to go to
Calcutta and had in consequence no time to de-
velop the subject. Lately I have been
arranging to get some families from
Madras presidency. Now twenty five
families have come forward to come and
settle here and take up lands; and they
say that owing to successive failure of
crops in those parts, and after seeing
the perennial supply of water and fertile
soil in this locality, that several thou-
sands of families are likely to come and
settle here:-

from Dharwar District, offered to come and settle in this locality and take up lands. They also stated that a very large number of families were likely to follow their example. These people wanted Thakavi advances and free grant of wood for building purposes; former payable back within three years. I verbally submitted this proposition to the Dewan and he approved of my idea; but immediately after this, I had to go to Calcutta and had in consequence no time to develop the subject. Lately I have been arranging to get some families from Madras presidency. Now twenty five families have come forward to come and settle here and take up lands; and they say that owing to successive failure of crops in those parts, and after seeing the perennial supply of water and fertile soil in this locality, that several thousands of families are likely to come and settle here.

Thirty six years ago there prevailed much unhealthiness in this locality owing to the malaria caused by extensive thick jungle and swamp; but since the locality has been opened, channels made water tight and cultivation increased, the health has considerably improved, more so for the last two years. People say that there is no fever since then; and people of the Madras presidency, who came to inspect these parts quite approve of the locality from points of health and convenience. If the Govt. is earnest about increasing the cultivation and revenue under this tank, I beg to propose that these opportunities should not be lost to encourage foreign people to come and settle in the locality, where there are extensive lands without cultivation.

Two head men who came and inspected the place on behalf of others are sent with this letter. They will per-
-small-

personally explain all details of their proposal to come and settle here. They require Shakari advances, at the rate of 150 Rs: for each family and ordinary building materials free. They are willing to refund the Shakari amount by four annual instalments. A sum of 100 Rs: will be required to purchase two pairs of bullocks for each family and fifty Rs: for their railway fare and food for five months i.e. till they raise one crop.

If Govt. has any confidence in me, I beg to recommend that 37500⁰⁰ may be advanced to these 25 families as an experiment payable back within 4 years and grant them building materials free. I think the Shakari advance asked for by them is ^{not} too great considering the amount of benefit Govt. would eventually derive by the measure. If Govt. feel any hesitation to make Shakari advances to these foreigners, it may be paid on my responsibility.

As cultivation season

begins next month, I beg that this subject may be disposed of at your earliest convenience - I have submitted the proposal to the Deputy Commissioner and have taken the liberty to address this to you in view to expediate orders. I have not made this proposal to serve any personal interest.

The bearers, one Bhaigavati Inodr: resident of Thiruvadam of Gudiattham Taluk, North Arcot District the other Desi Naidu, Inamundur vill, Valaji Taluk, of the same district are the head men referred to and they are anxious to come and settle here with 25 families, to begin with as early as possible.

I therefore request that you will be good enough to sanction the grant of Shakhavi and building materials free at your earliest convenience.

While the Govt: have spent and are spending very large amounts of

of money on the Subhara works and the
 Boran Kanave and Karikanave pro-
 -jects, it is necessary to make arrange-
 -ments to make them remunerative. It
 is idle to expect that local population
 will take up all waste lands within a
 reasonable period and in my humble
 opinion, whenever people come forward
 to come and settle in the vicinity of
 such works every encouragement
 should be given to them.

Subhara.

24th Feb 1901

I beg to remain
 Sir

Your most obedient servant
 K. Channarayana

Sir,

With reference to your Docket
No. $\frac{7921}{R 2794}$, dated 4th April 1901 on the
Subject of Mr. K. Shama Dyngar's application
for Takkari advances etc, I have the
honour to report as follows:—

2. I have inspected the
lands below Sulikere and discussed
the subject with Mr. K. Shama Dyngar
and the local Revenue Officers. Not very
long ago the lands below the Tank and
channels were not in very great request.
The reputed unhealthiness of the place
had

had much to do with the want of demand for the lands. It was usual for the raiyats to take up lands one year and resign them the next, as they could always get unoccupied fallow lands on darkhast. But things have changed considerably during the last few years. The whole neighbourhood shows signs of improved healthiness. Population has increased and is increasing. The only exception perhaps is the village of Hosahalli, but its decadence is more due to its insanitary situation than any other cause. I have made arrangements to shift this village to a higher locality conformably to the wishes of its inhabitants. The country served by the Siddama channel is an open flat country with superior soil on which valuable crops are grown.

3. I think the time has arrived for throwing open more lands for

cultivation under these channels. Such lands are available in the shape of Amratmahal Kanals and lands studded with date trees. Of the latter kind there appears to be an excessive reservation, every land on which there are date trees having been reserved for Excise purposes with the result that the date growth has enormously increased in course of time. It is a question whether the advantage to the Excise Department from such a reservation is at all commensurate with the loss of the land revenue caused by the withholding of the plots from actual cultivation. At all events it has afforded no scope to the free expansion of cultivation, and the full utilization of the costly and expensive works executed to the channels.

4. It appears to me that the principles enunciated in Government Proceedings No. $\frac{124}{455-63}$ dated 31st August 1901 should be applied in deciding the question regarding the grant of these lands. Mr. Vinicombe Davy, Deputy Excise Commissioner, after inspecting some other lands situated in the same locality has stated as follows:-

"None of these old cultivated plots can be said to be in the midst of groves, because there are practically no groves in those localities except in one or two places and both from an economical point (as much grain can be grown on them) and from a revenue point seeing they will pay wet Kandayam, cultivation should, I think, be permitted, but from an Excise point, I have no hesitation in advising that the right to every date tree with right of access should be

reserved to government, and if the applicants choose to take the lands on these terms, by all means let them do so."

5. In the light of the above observations, I have no hesitation in advocating a more liberal policy in granting these lands for cultivation, care being of course taken that the interests of the Excise revenue are not unnecessarily jeopardised.

6. I quite approve of Mr. Shama Iyengar's idea to import South Indian labourers into this tract. Their methods of cultivation and habits of industry will be an object-lesson to our own easy-going raiyats and will have far reaching effects upon the improvement of the indigenous agricultural population of these parts. Mr. Shama Iyengar's object is

is a laudable one and has a certain amount of public spirit in it. He takes all the risks connected with the enterprise, and only wants an advance of a sum of money on the security of his property. I feel no hesitation in recommending the advance of Rs. 3750/- asked for. His property under the Sulikere Tank is mortgaged to Mr. S. Shamma for 50,000 Rs, of which 24,000 Rs have been paid. Mr. Shama Iyengar assures me that there is no other liability on his estate. Vide his letter enclosed. I am of opinion that the advance applied for by Mr. Shama Iyengar viz Rs 3750/- may be safely made to him on the security of his interest in this estate and to be repaid in 4 annual instalments.

7. The lands applied for by Mr. Shama Dyngar for his Madras raiyats are shown in the accompanying statement. Except No. 120 which contains a date grove, I see no objection to grant the other numbers for cultivation, reserving such date trees as grow on the margin of the lands. Such trees form a fringe or belt and do not interfere with the cultivation.

8. Mr. Shama Dnyangar's well-known
zeal and perseverance is a sufficient -
guarantee for the success of the enterprise.

9 The Vernacular record is enclosed.

I have the honour to be
 Sir
 your most obed^t. Servant,

deputy Commissioner,
Shimoga District.

Q8
No. 9.7
No. 73-01
No. 8

Correspondence ending with Govt. Order no. R 2573 dated 10th December 1901, re the application of Mr. K. Shamiengar, for the grant of an advance of Rs 3750 to 25 families who are willing to come from the Madras Presidency to cultivate lands under the Sulekere Taluk and settle there.

✓
no. 78 1032-4 d 22/1/02
22

Order thereon: -

Mr. K. Shamiengar applies for the grant of a loan of Rs 3750/- to 25 families who have promised to come from the Madras Presidency and settle at Sulekere for cultivating lands which are extensively available. Mr. Shamiengar in addition to the loan wants the free grant to these families of ordinary building materials.

and requests that in case
the Govt. ^{should hesitate} ~~feel any hesitation~~
to make advances to foreign
^{without security} ~~the money~~ may be paid
on his responsibility and on
the security of the whole of
his property situated under
the Subkheri Tank. The Dy.
Commissioner of Shimoga supports
Mr. Shamiengar's request.

2. As the existing rules
authorize the grant of loans
only to agriculturists owning
lands in the State, the Govt.
in their Pasp. referred to
above, observed that the
application would be --
disposed of when the intended
immigrants actually come
here and took up lands in
Subkheri.

3. Mr. Shamiengar, ^{has since} represents
personally that the Subkheri
could not be treated as one
coming under the Land Revenue
Loans Rules, or the Takhavi
Rules. He asks for a loan
on the security of his property

to be repayable in four annual instalments, as reported by the Dy. Commr. 4. Govt. are accordingly pleased to take a favorable view of the subject and sanction as a special case the grant of the loan of Rs 3750/- applied for by Mr. Shamlingar on the security of his property to be repaid in 4 annual instalments with ~~an~~ interest ^{at} of 4% per annum. The loan will be paid in instalments of ^{at a time, the subsequent} Rs 1000 each, ~~except the last instalment which will be one of Rs 750 only.~~

instalment being paid after the previous one has been shown to be properly utilised, and the proper agreements should be taken from Mr Shamlingar, to secure the ^{due} application & timely repayment of the money advanced.

5. The Deputy Commissioner will report at the close of each official year the progress made in settling the ^{showing} ryots, ^{of houses built} The number of families ^{places} that have settled, the ^{from which they come} ~~places~~ ^{new} ~~they had come from~~ the extent of land taken up by each family, and the progress made in breaking up new land and building houses. It will also

be interesting to know the
caste and profession of the
immigrating families and
the causes of their emigration

6. The Dy: Commr. is
requested to arrange matters
with Mr. Shamiengar in
pursuance of the instructions
given above and report the
result for the information
of Govt. The necessary docu-
-ments should be obtained.

Palace Division

Miscellaneous works to marriage Pavilion

Removal of the gallery extended in last
Deccanah and fitting the old stairs with
necessary

An estimate of Rs 24,430 was
received by Govt in September
last for this work. A demand
estimate for Rs 37,205 has
since been submitted to
Government for sanction
with explanation as to the
necessity for the excess.
Of this amount Rs 6900 are
debt to P.W. Budget
and the balance to Civil
Department. An additional
grant to cover (Public
works) is necessary.

will save Rs

(This does not
include value
of materials
amounting to
Rs 633-3-3 issued
to work but now
as advised by
Executive Engineer
to be written
back to stock)
